THE WORLD'S FEARLESSNESS TEACHINGS

A CRITICAL INTEGRAL APPROACH TO
FEAR MANAGEMENT/EDUCATION FOR
THE 21ST CENTURY

R. MICHAEL FISHER

A timely scholarly work for leaders of all kinds.

The World's Fearlessness Teachings: **A Critical Integral Approach to Fear Management/ Education for the 21st Century**

-R. Michael Fisher, Ph.D.

First book summarizing humanity's knowledge on fearlessness.

Published by University Press of America ISBN 978-0-7618-4915-5

The World's Fearlessness Teachings addresses the human fear problem in a truly unique and insightful way, summarizing the teachings on fearlessness from around the world and throughout history. The author then utilizes critical integral theory (a la Wilber) as an approach to categorize the developmental and evolutionary spectrum of fear management systems known thus far.

Fisher has spent twenty years researching the timely topic of fear and how to best manage and transform it. From this experience he offers an educational healing vision to address the challenges of a dangerous 21st century.

Fear's Empire has taken rule. It is time to resist it using the best intelligence from both sacred and secular traditions, as well as the transformational theories humanity has to offer. He maps out ten fear management systems that will benefit future-positive leaders everywhere.

We need to think differently in a post-9/11 world...

"The book is an important one. I'll not teach a curriculum theory class without it in the future."

-Clifford Mayes, Prof. of Educational Psychology
Brigham Young University

"I found [Fisher's] delineation of the historical and theoretical contexts of 'teaching fearlessness' affirming. They provide a strong staging area for discussion on the role of fear and emotional intelligence in transformational learning."

-Mary O'Hara, Ph.D., sociologist, activist, educator

What are the World's Fearlessness Teachings? Is fearlessness even possible? Would it be a good goal for all humanity, or is it the very problem today as war and violence spreads?

Such questions, among others, have led me to one of the most fascinating topics of my own life. I attempt to share my experiences within a universal set of generalizations which, I argue, are important for us to develop a new *critical literacy* on the topic of fearlessness and fear management/education in general.
